Portable Sealer for Liquid Medicine Pots

lower cost - lower maintenance

The Singular Medicine Pot Heat-Sealer will peel-seal 28 medicine dosage pots at a time and can be tucked away on a shelf when not in use.

Ideal for Pharmacies offering MDS services to Nursing and Care Homes, as well as domiciliary use, this desk top machine uses the same technology as in the Singular Impulse Heat Sealer used over the past ten years for Monitored Dosage System packs such as Boots Manrex.

Weighing just 10 Kg with a footprint of 400mm X 325mm, and costing only £1645.00, this desk-top sealer is the most advanced small liquid medicine pot sealer anywhere.

No initial wait for machine to heat up.

Only heats when closed and sealing.

Environmentally sound Saves Electricity

Production rate is about 100 packs per hour, per machine.

Designed by Singular Products Limited (www.singularproducts.com) the patented Singular pot sealer is manufactured in the UK.

Patent Pending Number: 1803557.6
